

TIMBERTECH
RAILING & DECKLITES

RadianceRail with DeckLites shown in Classic Black

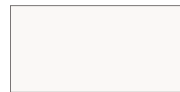

More design possibilities

mix and match numerous color choices

TimberTech does more than create beautiful decking. We offer maximum design flexibility with a best-in-class selection of railing, in a wide range of color choices, and award-winning lighting products. Mix or match color combinations to express your own style and create a one-of-a-kind outdoor living space.

TimberTech products are available through a nationwide network of dealers and contractors. Visit timbertech.com to find user-friendly design tools that will help you visualize the possibilities, and use our dealer and contractor locators to see actual products, colors and finishes.

RadianceRail®

industry-leading hidden hardware system

RadianceRail, TimberTech's most popular rail system, is easy to install and gives you more color combinations. Hidden hardware creates sleek, smooth lines while the sturdy architectural design eliminates rattles and squeaks for quiet, clean sophistication.

- Colors: Coastal White, Classic Black, Mountain Cedar, RiverRock and SandRidge
- Rail Kit conveniently includes material for one straight or stair rail section (available in 6' or 8' sections in 36" or 42" rail heights)
- Post Covers in 42" and 12' lengths, Post Caps and Post Skirts sold separately
- 8' Top, Bottom and Support Rails and 12' Balusters available in bulk for easy mix-and-match color customization
- 25-year limited warranty for residential applications

Ornamental Rail

traditional style, timeless form

There's nothing conventional about Ornamental Rail. Created for those who prefer a more traditional style, Ornamental Rail is timeless and has the look and feel of real wood.

- Colors: Cedar, Grey and Redwood
- Rail Kit conveniently includes material for one straight or stair rail section (available in 6' or 8' sections)
- Baluster Kit contains Solid Square Balusters for one 6' or 8' section in 36" rail heights
- Post Covers in 4' or 12' lengths, Post Caps and Post Skirts sold separately
- 12' Balusters available in bulk for easy mix-and-match color customization
- 25-year limited warranty for residential applications

BuilderRail®

classic look, perfect view

Designed for the perfect view, this composite rail combined with galvanized black metal balusters reflects both beauty and strength.

- Colors: Cedar, Grey and Redwood
- Metal Baluster Kits and Stair Kits available in 6' or 8' sections in 36" or 42" rail heights
- BuilderBoard®, all Solid Deck Planks, Post Covers in 4' or 12' lengths, Post Skirts and other bulk items sold separately
- The galvanized, powder-coated balusters are 40% stronger than aluminum and are backed by a 10-year limited warranty
- Other components covered by a 25-year limited warranty for residential applications

Railing Options & Accessories

design and installation flexibility

If your deck has a special design or installation requirement, TimberTech has a solution.

- **Curved Railing & Gates** – give your deck a custom, finishing touch with TimberTech Railing Systems curved to your specification or made into custom gates; TimberTech planks can also be curved
- **Secure-Mount Post™ & Deck Mounting Kit** – lets you install any TimberTech railing directly on a TimberTech deck or concrete surface without using a 4 x 4 treated wood post; six-inch adjustable top block allows easy extension from 36" to 42" height
- **ADA Hand Rail System** – designed to conform to the requirements of the Americans with Disabilities Act, this aesthetically pleasing design provides a continuous gripping surface through the entire length of the railing; available in white and black

ADA Hand Rail System

DeckLites®

award-winning design, chic finishing touch

The only lighting system designed by deck experts, TimberTech's DeckLites have won multiple product awards for innovation, function and design. DeckLites allow you to extend your outdoor living enjoyment well into the night, while maximizing safety. This chic lighting system is low voltage, energy efficient and helps put a unique, refining touch on your deck.

- Other available components include Wire, Wire Connectors, Wire Guides, 150 and 300-Watt Low-Voltage Transformers and Replacement Bulbs
- Lights and fixtures include bulbs and installation hardware
- All items sold separately
- All DeckLites components have a 5-year limited residential warranty
